A Garlinghouse Plan —
THE MAGIC CARPET
TO YOUR DREAM HOME

GARLINGHOUSE BUDGET HOMES

FIFTH EDITION

The L. F. Garlinghouse Company, Inc., 115 Eighth Avenue, East, Topeka, Kansas, is the oldest and largest firm in the house plan business and has been helping thousands of prospective homebuilders to obtain homes that are distinctive—homes that express individuality. Homes built from Garlinghouse plans are practical homes—homes that utilize all available space to the best advantages. Garlinghouse designers, draftsmen, and builders with many years experience helping people build homes of maximum quality and minimum expense, have prepared a detailed

plan for each of the designs shown in their books.

The plans shown in this book represent only a fraction of the total number of designs which are available to you. We have 22 different plan books listed on the inside back cover of this book and in them are more than 1250 designs from which you may choose the one you wish to build.

As soon as you have selected a Garlinghouse plan, send us your order and we will see to it that it is in the mail within twenty-four hours after receipt!

Order Your Plans This Simple, Easy Way!

We have available to you the complete working plans, specifications, lumber and mill lists for the designs shown in this book and all of our other books (listed on the back cover) at the prices listed with the design (\$7.50 to \$25 per set). Your plans will be in the mail within 24 hours after we receive your order. Here's what you get:

PLANS—The complete working plans consist of blue prints of all four elevations, basement and all floor plans and details showing built-in features and intricate parts, all drawn to a scale of not less than one-fourth inch to one foot. Also, a plot plan in blank to be filled in locally.

SPECIFICATIONS—The specifications explain in detail the construction of the

house from the excavation to the interior decoration.

LUMBER AND MILL LISTS—The lumber and mill lists consist of an itemized list of the lumber and mill materials needed to construct the building and state where each item should be used.

Use the Handy Order Blank Attached!

Garlinghouse BUDGET HOMES

Published by **L. F. GARLINGHOUSE COMPANY, INC.** Topeka, Kansas

Fifth Edition
PRICE 50 CENTS

Printed in U.S.A.

I. G. LIEURANCE, Designer

No. 3288—There are various features which make this home exceptionally desirable. For instance; good proportions in exterior design, maximum light and cross ventilation in all rooms, convenient and direct access of kitchen to front door and bath and a full basement which may be arranged by the builder in any suitable manner to meet the required needs.

Cubic Feet:

First Floor	9,363
Basement	9,024

Complete plans as shown or reversed, specifications, lumber and mill list \$15.00

Duplicate sets with original order. Per set 5.00

Secure complete plans from your dealer or **L. F. Garlinghouse Co., Inc.**, Topeka, Kansas.

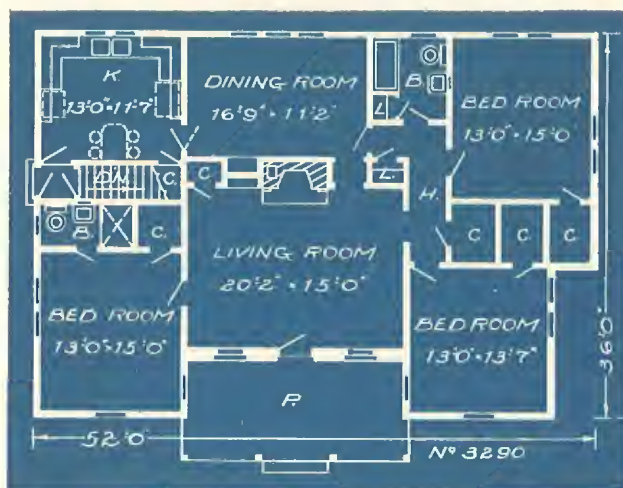

No. 3290—We chose this setting because of the sprangley trees in front and the wonderful view of a little valley, then, we built the wide porch and large windows so that we might feast our eyes on the lovely landscape and enjoy the cool fresh air of our hill top. Our kitchen is indeed prizeworthy; with everything within reach, housework is a pleasure.

Cubic Feet:

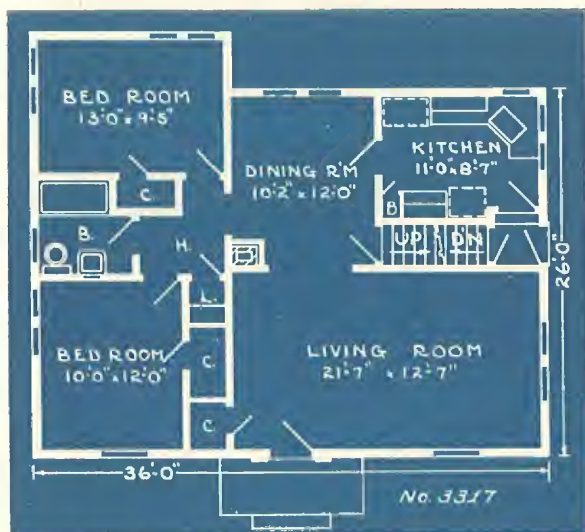

Basement 13,344
First Floor 14,178

Complete plans as shown or reversed, specifications, lumber and mill list \$15.00

Duplicate sets with original order. Per set 5.00

Secure complete plans from your dealer or L. F. Garlinghouse Co., Inc., Topeka, Kansas.

No. 3317—A gnarled tree in the door yard, with lacy leafed boughs above, welcomes and protects the guests who enter. This beautiful little frame cottage is quite worthy of such a setting. The complete plans show an excellent arrangement of five lovely rooms, bath, closets, a large attic and a full basement.

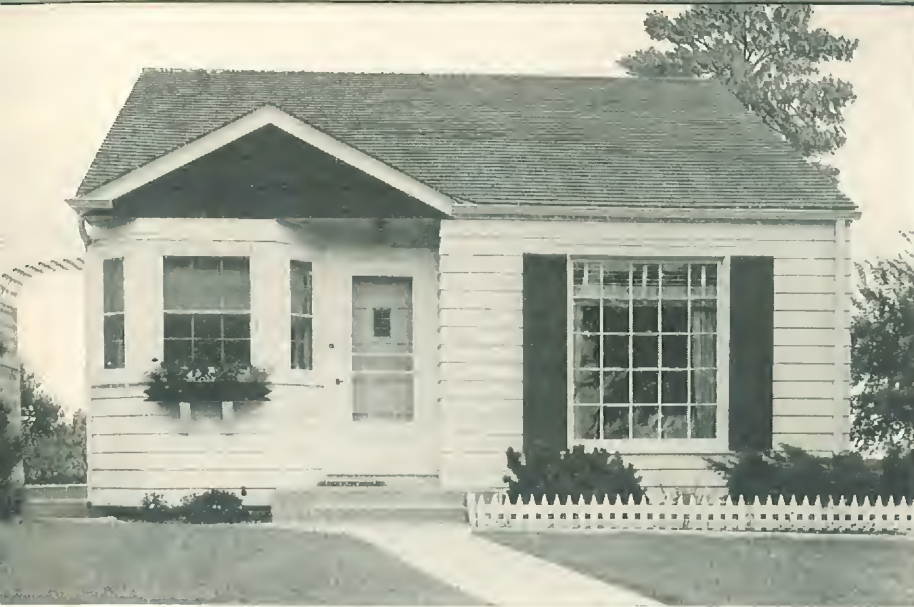

Cubic Feet:

Basement	7,936
First Floor	8,432
Attic	4,960

Complete plans as shown or reversed, specifications, lumber and mill list \$15.00

Duplicate sets with original order. Per set. . . 5.00

In using Garlinghouse plans, the chance of costly errors is reduced to a minimum.

No. 3442—Special consideration was given to the planning of this home to offer spacious, well-ventilated rooms in the confines of the narrow lots of congested areas. Worthy of recognition is the arrangement of the dinette, achieving maximum use of this area by using it as the entrance-way leaving full use of the living room for furniture arrangement.

Cubic Feet:

First Floor	7.968
Basement	7.680

Complete plans as shown or reversed, specifications, lumber and mill list \$15.00

Duplicate sets with original order. Per set 5.00

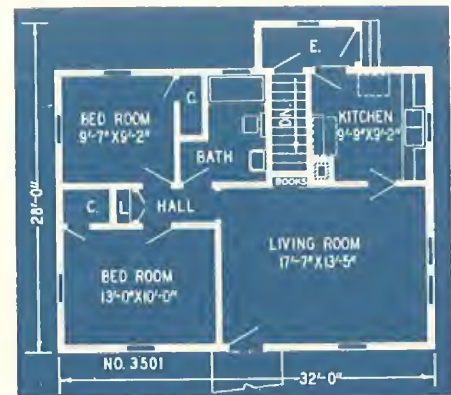

No. 3501—In building this cottage, every dollar buys a full dollar's worth of livable home. There are four rooms—kitchen, living room, two bedrooms, besides a bath and full basement. Construction is frame throughout. Asbestos or wood shingles may be used in place of siding shown in the photo, for exterior walls, if desired.

Cubic Feet:

Basement	6400
First Floor	6800

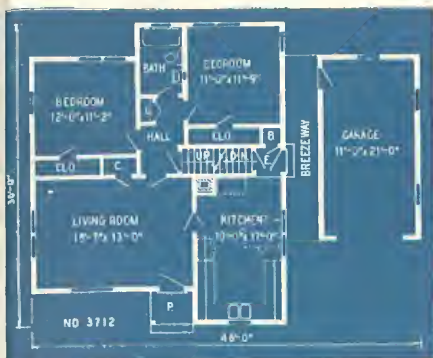

Complete plans as shown or reversed, specifications, lumber and mill list \$12.50

Duplicate sets with original order. Per set 5.00

Complete plans, specifications, lumber and mill lists will save you many times their cost.

No. 3712—A moderate sized house that may be reduced to its basement size of 30'-0" x 36'-0" by the elimination of the garage and breezeway. Emphasis has been placed on convenience of living which may be easily detected by the accessibility of the kitchen to all parts of the house, the well controlled line of traffic, and the extra available space afforded by the 12 x 29 foot attic.

Cubic Feet:

First Floor	8,018
Basement	7,728
Garage	2,191

Complete plans as shown or reversed, specifications, lumber and mill list \$15.00
Duplicate sets with original order. Per set. . . 5.00

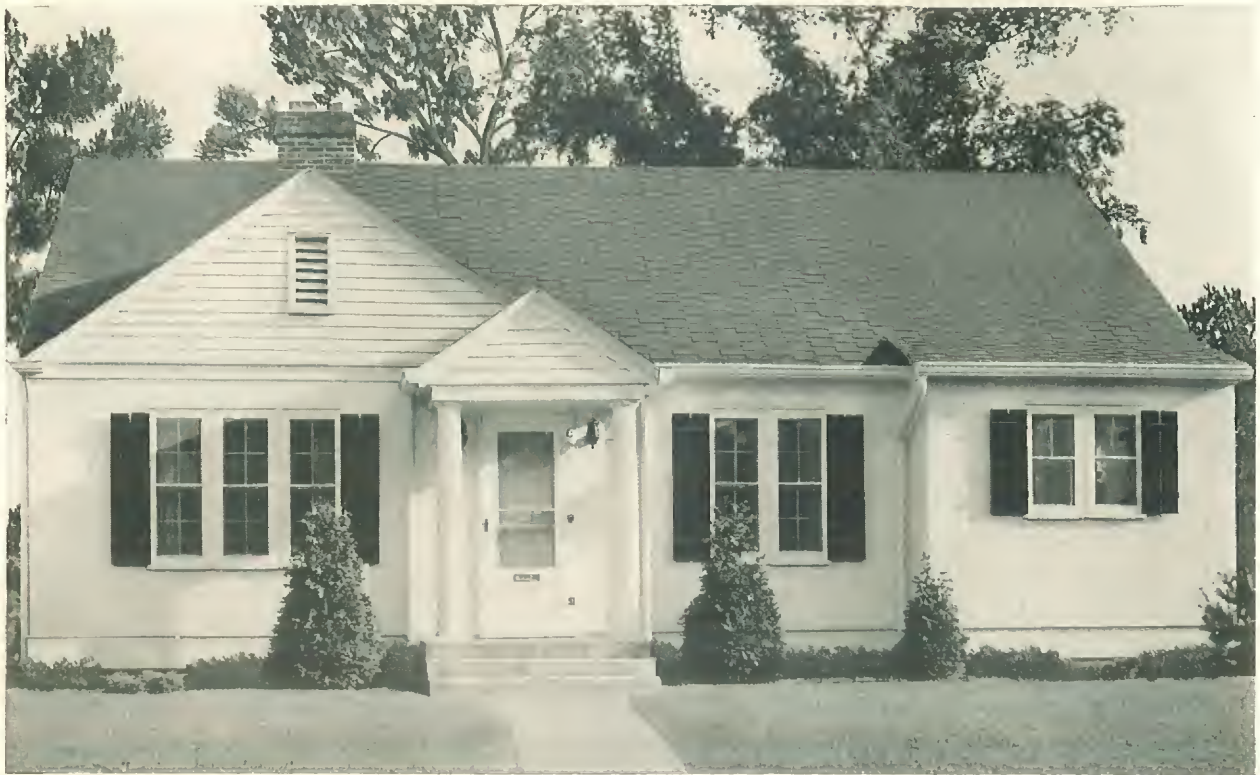

No. 3717—To prospective home owners who are interested in a comfortable home at low cost, this design should have considerable appeal. The floor plan includes kitchen, living room, two bedrooms and bath, besides a full, roomy basement.

Cubic Feet:

Basement	6,816
First Floor	7,242

Complete plans as shown or reversed, specifications, lumber and mill list \$12.50
Duplicate sets with original order. Per set 5.00

No. 3782—The clever use of plywood panels, narrow windows and a very prominent entrance has created a distinctive design in this moderate size house. By the aid of the builder a shed dormer may be added at the rear thus converting the storage attic into 800 square feet of additional habitable floor space.

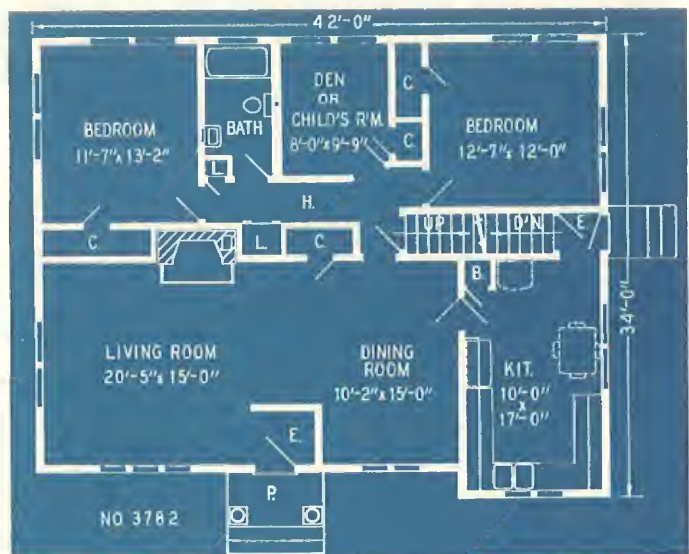

Cubic Feet:

First Floor 11,337
Basement 10,928

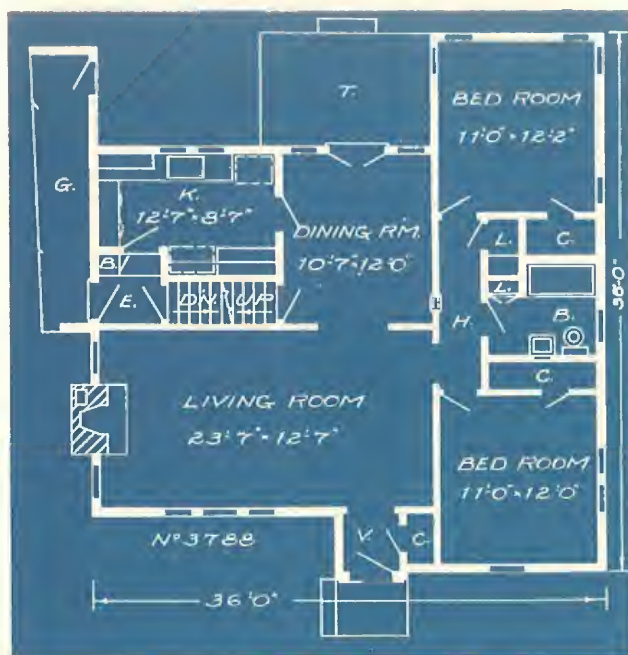

Complete plans as shown or reversed, specifications, lumber and mill list . . . \$15.00

Duplicate sets with original order.

Per set 5.00

In selecting your home from our books you can see exactly how it will appear after construction—a home designed for beauty as well as economy.

No. 3788—The simplicity of this unassuming little house makes it economical to build and very practical for a small up-to-date family. The kitchen is conveniently arranged and with its wall table for hurried breakfasts, many steps are saved. Four other rooms, bath, closets and attached garage are shown. A large storage attic and a full basement are also provided.

Cubic Feet:

Basement	8,864
First Floor	9,418
Attic	5,540
Garage	1,920

Complete plans as shown or reversed, specifications, lumber and mill list \$15.00

Duplicate sets with original order.

Per set 5.00

All plan orders are filled promptly.

No. 3794—The open space created by the living room and dining room combination gives this narrow lot plan a feeling of roominess. The planning is versatile and the front bedroom may be used as sleeping quarters or as a home office for those who find it convenient to transact business matters in privacy.

Cubic Feet:

First Floor	9,114
Complete plans as shown or reversed, specifications, lumber and mill list	\$15.00

Select the design for your new home from a Garlinghouse Plan Book and send for the complete plans, specifications, lumber and mill lists. Secure them from your dealer, Loan Company, or The L. F. Garlinghouse Company, Inc., Topeka, Kansas.

No. 4193—A ducky little bay window in the kitchen helps to form dining space and adds greatly to the lovely exterior of this design. The dignified entrance with the iron railing on each side of the wide steps beckons an irresistible welcome. Four lovely rooms, bath and closets make up the floor plan. A large storage attic is provided above stairs and a full basement below.

Cubic Feet:

Basement	8,160
First Floor	8,670
Attic	5,040

Complete plans as shown or reversed, specifications, lumber and mill list... \$12.50

Duplicate sets with original order.

Per set 5.00

To build a home without a plan or with only hastily drawn sketches is generally costly and unsatisfactory.

No. 4208—The outstanding feature of this beautiful little cottage is the unusually fine combination dining and living room and the convenience of the kitchen. The complete plan shows four lovely rooms, bath, closets, and a full basement.

Cubic Feet:

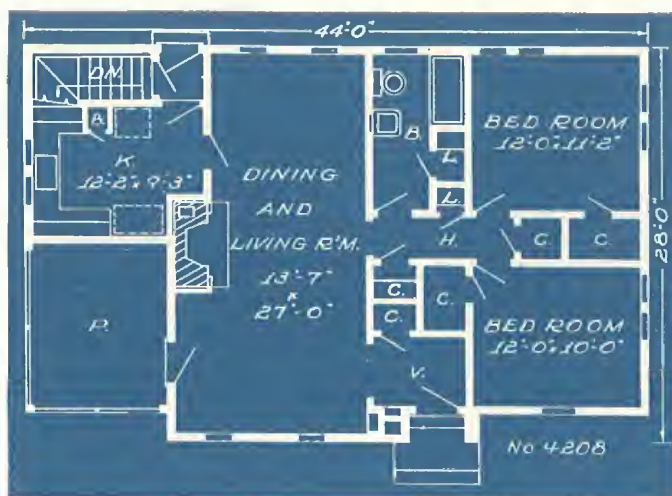

Basement 8,464

First Floor 8,993

Complete plans as shown or reversed, specifications, lumber and mill list . . . \$15.00

Duplicate sets with original order.

Per set 5.00

Because owning a Home is probably one of the most important investments you will ever make, it demands careful planning.

No. 4212—Careful arrangement of a minimum amount of square feet provides ample room for convenient living in this pretentious design of battened vertical siding set on a foundation of concrete blocks. Emphasis has been placed on privacy within the house as can be noticed by the

complete segregation of the sleeping quarters and the division of the bath which offers private usage by two persons. A disappearing stair, located in the hall, provides additional storage space in the attic.

Cubic Feet:

First Floor 6,865

Complete plans as shown or reversed, specifications, lumber and mill list \$15.00
Duplicate sets with original order. Per set 5.00

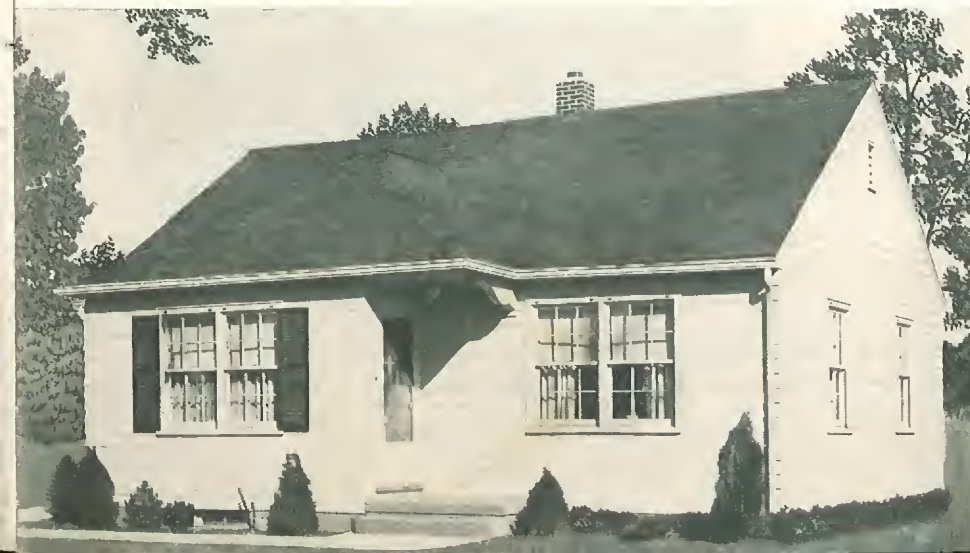

No. 4215—A modest appearing frame house of moderate size with a full basement. Worthly of note is the complete segregation of the living

room from the remainder of the house by the use of a modern-fold partition between this space and the dinette.

Cubic Feet:

First Floor 7,342 Basement 6,904

Complete plans as shown or reversed, specifications, lumber and mill list \$15.00
Duplicate sets with original order. Per set 5.00

No. 4294—Simple lines are shown for this cottage but it is made especially beautiful with the lovely brick front and recessed doorway. A very convenient and practical plan is shown and with the dining alcove, 5-room efficiency is given. The garage is shown attached, but may be omitted and built in the rear, if preferred.

Select a design that is in harmony with other homes in your neighborhood.

No. 4750—A beautiful cottage with a somewhat rambling appearance, caused by the attached garage. If the width of your lot will not permit the garage to be attached, it may be built in the rear. The entrance to the garage may be in front, if desired. The brick around the entrance adds greatly to the beauty of the design.

Cubic Feet:

Basement	8,304

Duplicate sets with original order.

Per set 5.00

Minor alterations in design and material substitutions can be handled by any competent builder, without going to the expense of making up special plans.

No. 4881—This beautiful cottage makes an excellent country home or for a wide, shallow lot or, if you prefer, the garage and porch may be omitted, thus allowing the house to be built on a more narrow lot. The plan shows an ideal arrangement of 5 rooms.

Cubic Feet:

Basement	8,032
First Floor	8,534
Attic	5,020
Garage	1,920

Complete plans as shown or reversed, specifications, lumber and mill list .. \$15.00

Duplicate sets with original order.

Per set 5.00

Secure complete plans from your dealer or L. F. Garlinghouse Co., Inc., Topeka, Kansas.

No. 4910—An unusually beautiful, but quite plain exterior is shown for this little frame cottage. If desired, there may be a partition with an arched opening between the living room and dining room, but the plan shows them as one large L-shaped room. Two large bedrooms, bath, closets and kitchen complete the floor plan. The complete plans also provide for a large attic and full basement.

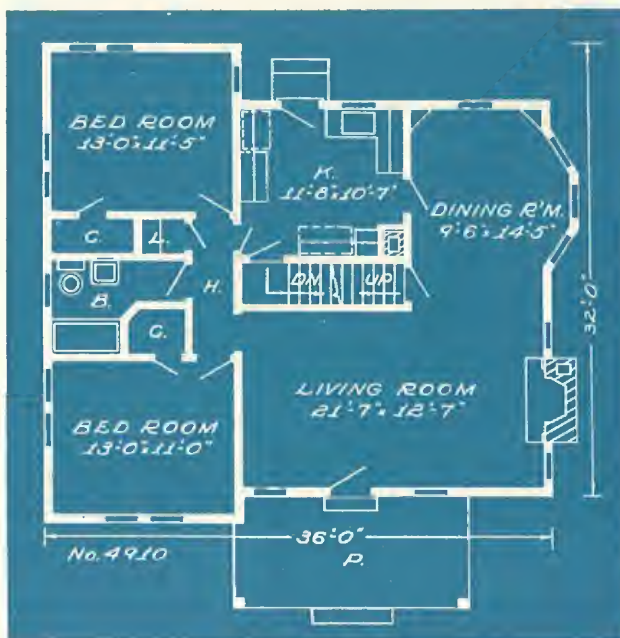

Cubic Feet:

Attic	5,460

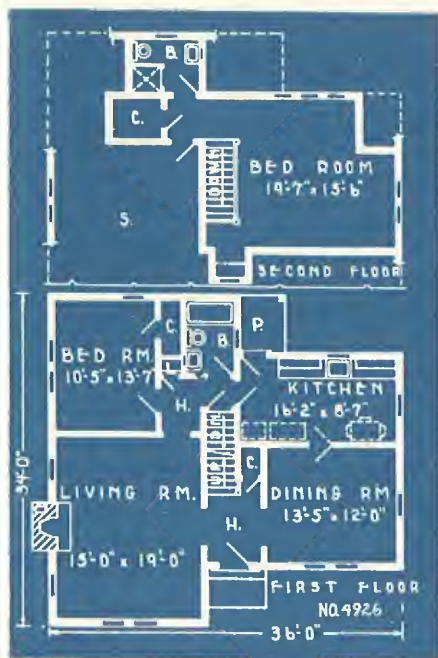

Complete plans as shown or reversed, specifications, lumber and mill list.....\$15.00

Duplicate sets with original order.

Per set 5.00

In using Garlinghouse plans, the chance of costly errors is reduced to a minimum.

No. 4926—A lovely little house with 4 fine cozy rooms, bath and closets on the first floor and a very large room, bath and storage space on the second floor. Many windows insure plenty of light and ventilation.

Cubic Feet:

Basement	8,064
First Floor	8,568
Second Floor	4,224

Complete plans as shown or reversed, specifications, lumber and mill list \$20.00

Duplicate sets with original order. Per set 5.00

To build without definite plans invites misunderstandings, possibility of costly mistakes and faulty, weak construction.

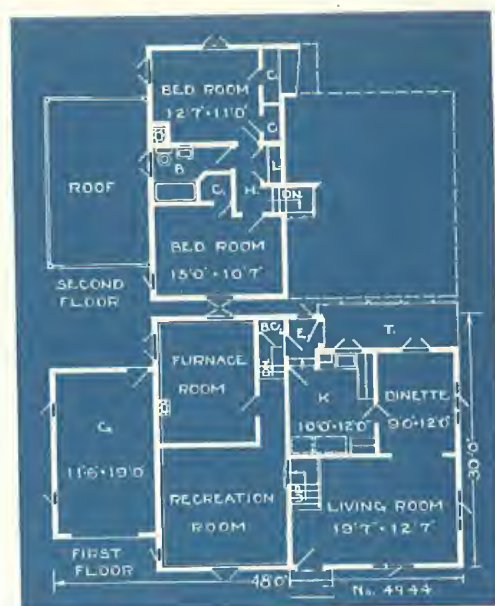

No. 4944—An unusual and very attractive design. The basement is only a few steps down from the main floor. The second floor is over the basement. The garage is shown attached but may be omitted, if desired.

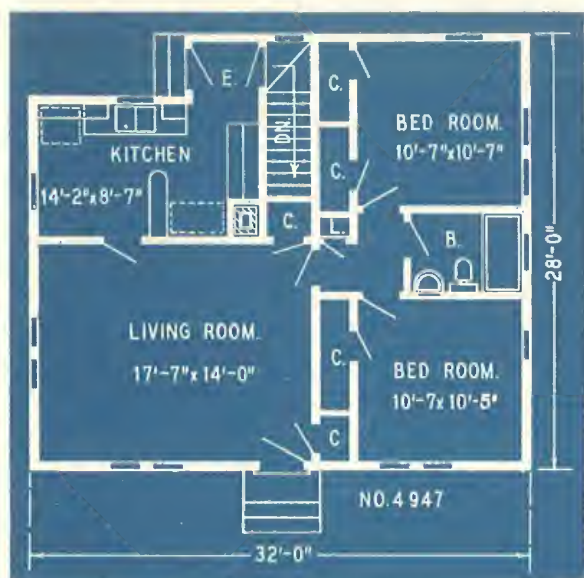

Cubic Feet:

Basement	4,080
First Floor	4,550
Second Floor	4,080
Garage	1,720

Complete plans as shown or reversed, specifications, lumber and mill list \$17.50
 Duplicate sets with original order. Per set 5.00

Our complete plans and specifications will save you many times their cost.

No. 4947—Shown here is an attractive little home that is within the means of the average family. The floor plan shows four rooms—living room, kitchen, two bedrooms, bath and six closets. Stairs from a landing just off the kitchen lead to a full basement. The foundation is concrete and the house construction is frame with sided exterior.

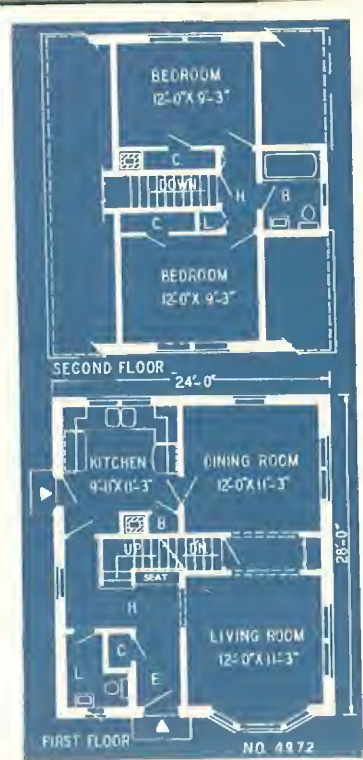

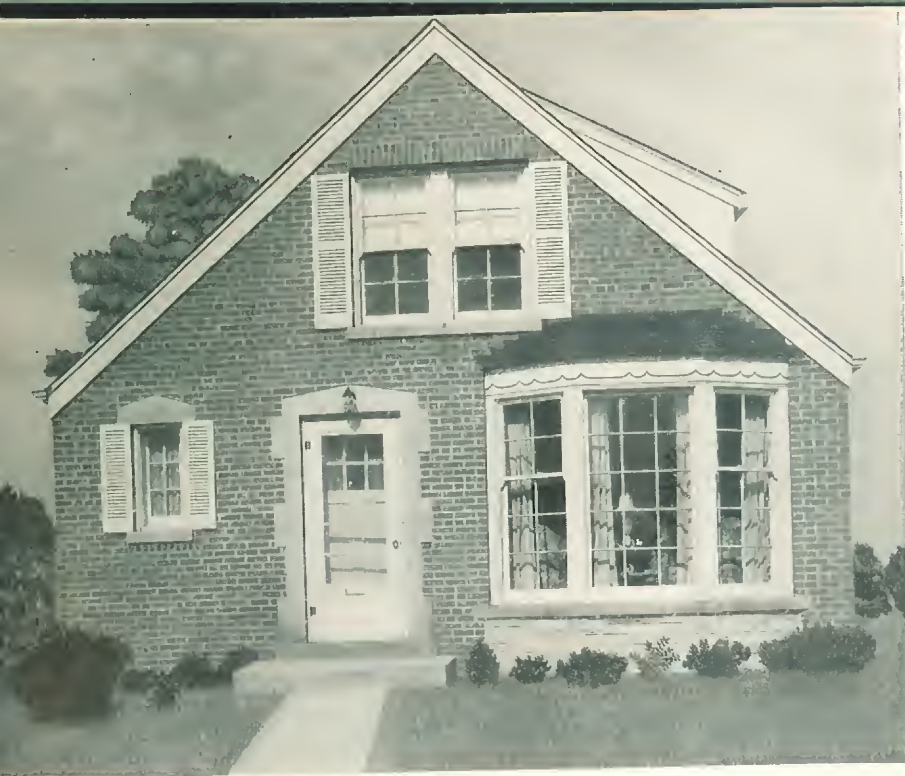

Cubic Feet:

Basement	6,848
First Floor	7,276

Complete plans as shown or reversed, specifications, lumber and mill list \$12.50

Duplicate sets with original order. Per set. . . 5.00

In selecting your home from our books you can see exactly how it will appear after construction—a home designed for beauty as well as economy.

No. 4972—Careful planning is necessary to meet the living requirements of a family when the restrictions of cost and lot size are definite. Here is

a story and a half design of brick veneer to meet those requirements and yet give room to move about in keeping with the modern trend of living.

Cubic Feet:

Because owning a Home is probably one of the most important investments you will ever make, it demands careful planning.

No. 5015—This small design of frame with asbestos-cement shingle siding over a full basement was planned for the family with one child. The child's room is large enough to accommodate a single bed or bunk beds and the wardrobe cabinet provides

the correct storage for clothing, shoes, toys, etc. This room, at a later date, may be converted into a ground level utility room when the child has left and the parents find that the basement stairs are not so easy to climb.

First Floor 5,976

Basement 5,760

Complete plans as shown or reversed, specifications, lumber and mill list \$12.50

Duplicate sets with original order. Per set 5.00

No. 5025—Simplicity of design and use of low-cost stock materials gives the owner of this house maximum living for minimum cost. With a simple

change of partitions by the contractor, the dining space may be connected with the kitchen, thus leaving the living room as a separate area.

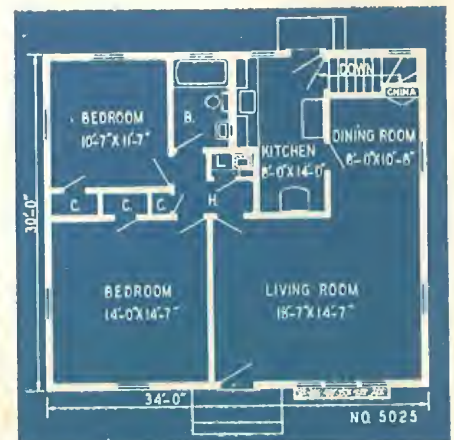

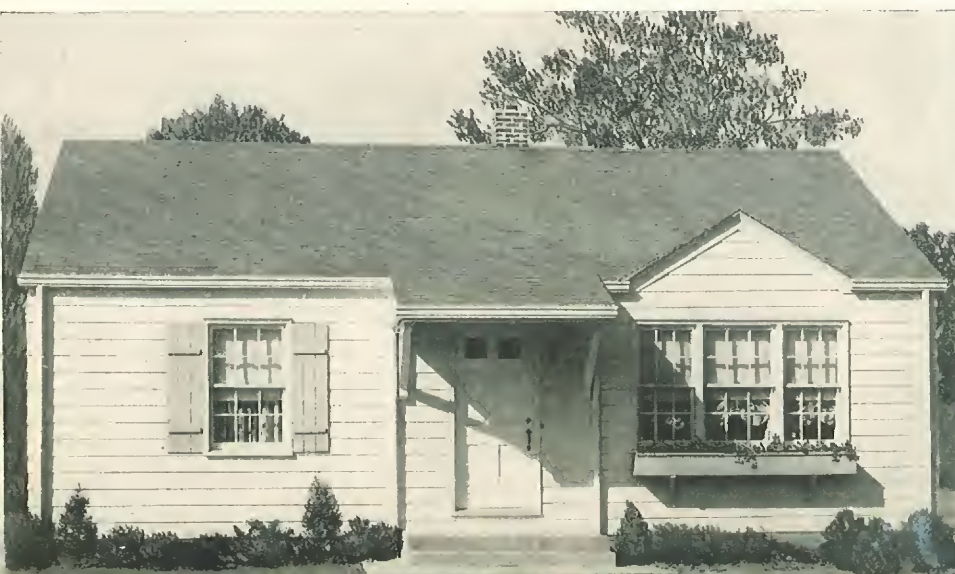

Cubic Feet:

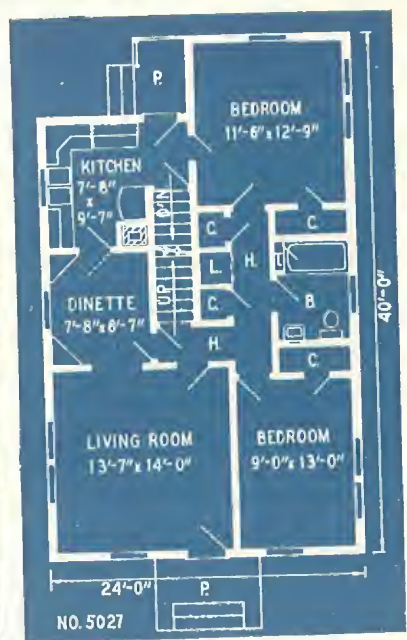

First Floor 8,266

Basement 8,160

Complete plans as shown or reversed, specifications, lumber and mill list \$12.50

Duplicate sets with original order. Per set 5.00

No. 5027—In large congested commercial areas, houses planned to set on a narrow lot are a requirement. This plan meets those requirements, yet provides ample space in which to move around. Full utilization of the roof area is indi-

cated by the stairway leading up to an open attic and the one leading down to a full basement, either of which may be adapted to a required use by the builder.

**Order Books at Prices Shown Or All The Above 22 Books In One Order—
A \$13.00 Value For Only \$10.00**

The world's leading publisher of residence plan books for the past 35 years, now presents 22 books featuring over 1200 different designs—all of which are proven popular and practical or are new. Never before such an array of residence plan books—and at prewar prices, despite the tremendous increase in cost of labor, paper and other materials! These books show reproductions of residences that have been carefully planned and designed. Each floor plan shows sizes and arrangements of rooms and the photos show how the home will appear when complete. Plans are available for every one of the designs shown in the books.

COMPLETE PLANS

We have available to you the complete working plans, specifications, lumber and mill lists for the designs shown in this book, and all of our other books listed above, at the prices listed with the designs (\$7.50 to \$25.00 per set.) Your plans will be in the mail within 24 hours after we receive your order. Here's what you get:

PLANS—The complete working plans consist of blue prints of all four elevations, basement and all floor plans and details showing built-in features and intricate parts, all drawn to a scale of not less than one-fourth inch to one foot. Also, a plot plan in blank to be filled in locally.

SPECIFICATIONS—The specifications explain in detail the construction of the house from the excavation to the interior decoration.

LUMBER AND MILL LISTS—The lumber and mill lists consists of an itemized list of lumber and mill materials needed to construct the building and state where each item should be used.

QUANTITY BOOK DISCOUNTS
